HOW TO EXPORT SCANS **AS STL FORMATS** FROM ITERO SCANNERS

You cannot export directly from the machine and instead should use a computer

1. In your web browser, type **www.myitero.com** and log into your account.

2. Once logged in, you will see a list of your patients scanned and sent from your iTero scanner.

3. Navigate to the correct patient and click on their ID #. This will take you to the order information page.

4. Click on **"Export" (OrthoCAD 3.5 or higher).** Now a study model will pop up and a box that says **"OrthoCAD Export".** This will open the files and allow you to download them.

Order Informa	tion	And in case of the local division of the loc				Order ID	B Save e Cano
Order ID:	39487787	First Name:			Company:		
Order Code:	01CSG9K0	Lest Name			Doctor

5. In the **OrthoCAD Export box,** select the setting for download. Choose the following:

Export type: Choose the "Open Shell" option.

Data Format: Choose "Two files" (arches oriented in occlusion).

Folder Name: We recommend changing this number to your patient's name.

OrthoCAD Export		
Export Type:	Open Shel	~
Data Format:	File per Arch (arches oriented in occlusion)	~
File Format:	STL	~
File Size:		~
Folder Name:	PATIENTNAME	
It is always up to Third party provid for your intended	the doctor to decide the treatment plan for the patient. fers may provide guidance on the export type that would b use.	e most compatible
		Export

6. Click on **"Export" (OrthoCAD 3.5 or higher).** Now a study model will pop up and a box that says **"OrthoCAD Export".** This will open the files and allow you to download them.
